Submitted to His Highness.

These papers relate to the health of His Holiness the Swamigalu of Sringeri. The Senior Surgeon who was instructed to proceed to Sringeri and to report as to the present state of health of the Swamigalu, has sent a report which is submitted herewith for the gracious perusal of His Highness.

The Senior Surgeon reports that the Sub-Assistant Surgeon who is now in charge of the Local Fund Dispensary at Sringeri, was on special duty with His Holiness on the previous occasion when His Holiness was unwell and that he has experience in carrying out the instructions given by the Senior Surgeon. No other special medical arrangements for the care of the Swamigalu's health appears therefore to be necessary for the present.

With regard to the suggestion of the Senior Surgeon that the Swamigalu may be given a change of locality, the matter will be considered after the restoration of His Holiness to his normal state of health.

I beg also to submit for information the report of the Agent dated 28th September 1930.

My dear Mr. Krishna Rao,

I returned here yesterday from my village near Nanjungud where I was living for nearly 4 months past.

I am extremely sorry to inform you that since Sunday, 14th instant, His Holiness Sri Jagadguru's mental powers have been affected as on the previous occasions. The relapse this time appears to be a mild one, no virulence of any kind being so far visible. There has been no difficulty regarding his bath and food-taking. He is having very little sleep during nights. I shall watch hi for a few days more and write to you again.

With regards,

Yours sincerely,

No.

DEAR SIR

I write to state that as instructed in your D.O.No. 1235/C.B. dated the 25th September 1930, I proceeded to Srimurod on the 26th idem, to see His Holiness the Swamiji. He has practically relapsed into very much the same condition as he was in, during the last three months of the year 1928. He does not seem to recognise any one, nor does he pay any attention to his clothes. Most of the time he is seen walking about hastily in his room muttering or singing all the while. Sometimes he sits quiet and still. He does not, however, display any violent behaviour towards his attendants as he used to do before. He has his usual bath when water is kept ready, although without the usual formalities. When food is kept in the dining room, and he is left to himself, he takes a sufficient quantity of the same, but sometimes he throws or spills some of it.

I was informed that a few days before he got in to this condition, he expressed that he was conscious of the fact that he was going to get a recrudescence of the old trouble, as he had dreamt premonitions of the same. I was also informed that he was complaining of sleeplessness: and during the last few days he has not slept for more than an hour or two each day. The local Sub Assistant Surgeon started him on [illegible] for sleeplessness he refused to take any. But on the next day a tablet of Medinal was mixed with his food, and he took it and as a result he slept for 5 hours. [illegible] Mr. Srikantaiya also and the Sub Assistant Surgeon [illegible] same medicine every day. The Sub Assistant Surgeon in charge of the Local Dispensary [illegible] duty with His Holiness on the morning [illegible]

therefore some experience in carrying out the necessary instructions.

This is the third time that the Swamigalu is suffering from mental trouble; and I am afraid relapses may become more frequent. A change of environment is the only possible measure worthy of trial to prevent or at least mitigate such relapses. this connection I beg to invite the attention of Government, once again, to the concluding paras of my previous report submitted this office No. C. 812-25, dated the 4th December 1928, regarding the desirability of removing the Swamigalu from Sringeri to Mysore or Bangalore, and the necessity for appointing his successor.

Yours sincerely,
S. Subba Rao.

Bulletin RE: the health of His Holiness
Sri Swamigalavaru, Sringeri Mutt.

12th to 14th November 1930, both
days inclusive.

The slight improvement in the condition of His Holiness reported on 12th instant continues.

He has been more peaceful than in the past and previous weeks. He had food properly and has slept for fairly long hours by night.

On the 14th instant, His Holiness slept from 1 to 3 P. M. and on rising was seen reading some book on Vedantha. At 8 P.M. he had his usual bath, whereupon he performed his ablutions in brief in a satisfactory --- manner.
